

# My Reproducible Manuscript

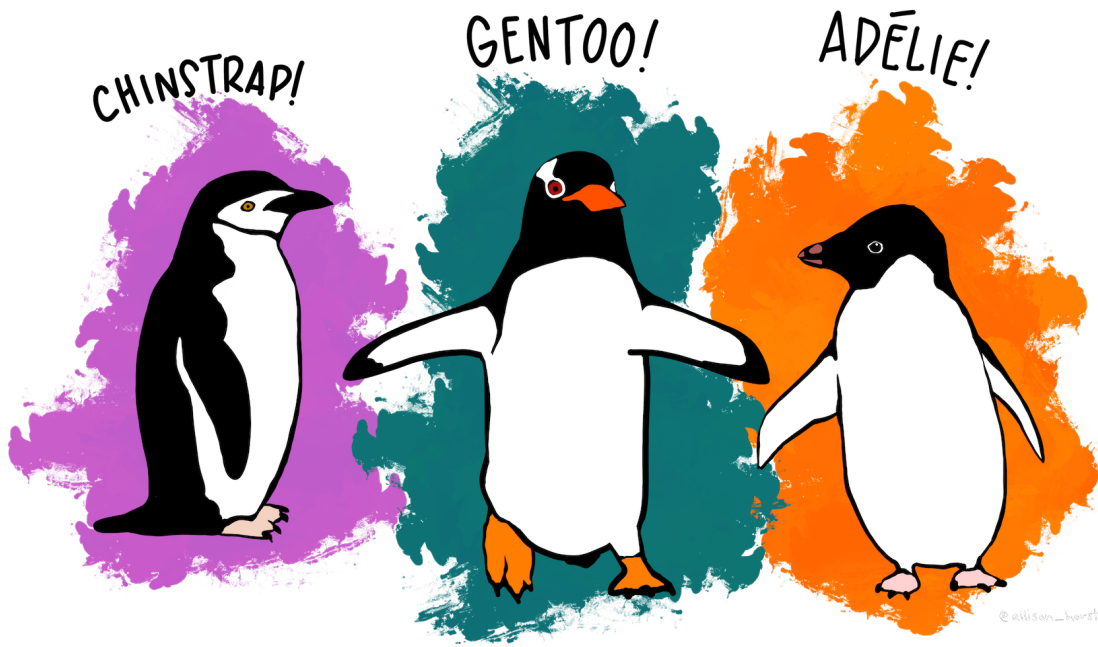

Lidiya Mishieva

## Meet Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

## Meet the penguins

The `penguins` data from the [palmerpenguins](#) package (M. Horst, Presmanes Hill, and B. Gorman 2022) contains size measurements for 344 penguins from three species observed on three islands in the Palmer Archipelago, Antarctica.

And this is just a random inline text reference for exercising purposes using the book by Gandrud (2018).
