Meet Quarto

Quarto enables you to weave together content and executable code into a finished document. To learn more about Quarto see <https://quarto.org>.

Meet the penguins

The `penguins` data from the [palmerpenguins](#) package (M. Horst, Presmanes Hill, and B. Gorman 2022) contains size measurements for 344 penguins from three species observed on three islands in the Palmer Archipelago, Antarctica.

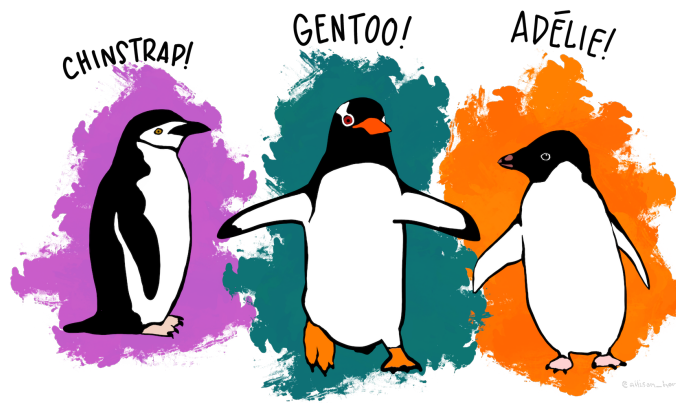

Figure 1: Amazing illustration

And this is just a random inline text reference for exercising purposes using the book by Gandrud (2018).

Results

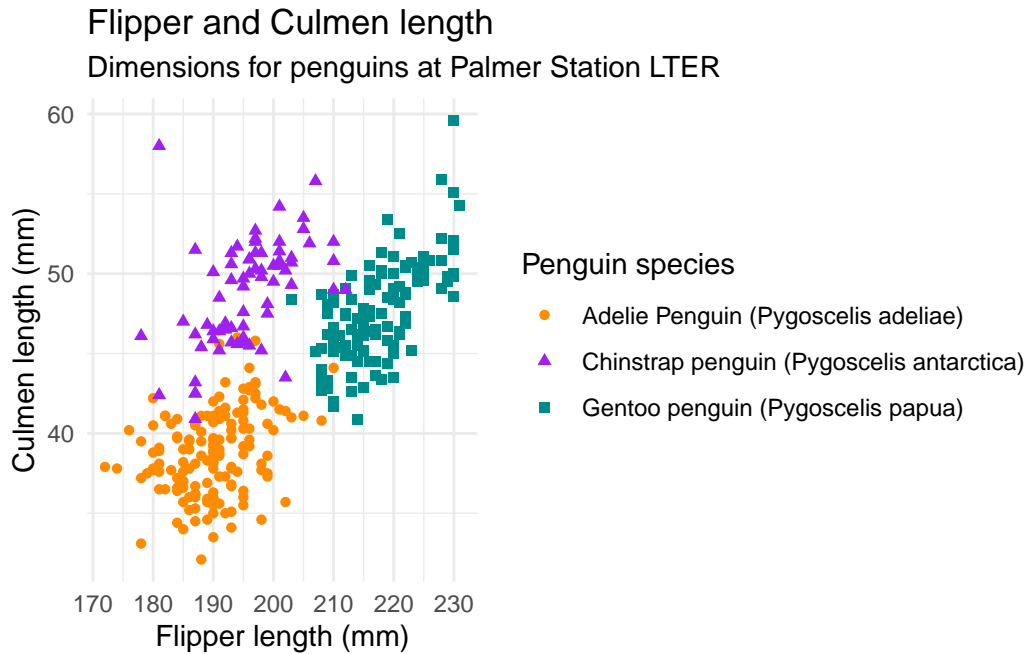

Figure 2: Amazing penguin scatterplot

Example of an inline code: 25 plus 25 equals 50. Also the data contains 152 Adelie penguins, 124 Gentoo penguins, and 68 Chinstrap penguins.
